FL 33131  
Miami, FL, USA  
United States

Room rates: \$199 plus taxes per night  
Deadline to book preferential rate: 24th May 2024  
Bookings: <https://www.hyatt.com/en-US/group-booking/MIARM/G-MATA>

## TERMS AND CONDITIONS

#### Payments

All bookings made prior to the conference must be paid in full to guarantee registration. Once payment has been received, an email confirmation and a receipted invoice will be sent. If payment is not made at the time of booking, registration will be provisional. Bookings received less than two weeks before the conference date can only be paid by credit card.

#### Early Bird Rate

In order to qualify for any 'early bird' rates, booking must be received before the deadline date listed in the conference marketing material.

#### Substitutions & Cancellations

Delegates may nominate an alternative person from their organisation to attend up to 24 hours prior to the start of the event, at no extra charge. Should substitution not be possible, cancellation charges apply as follows:

- 8 weeks or more prior to start of event: 10% of the delegate fee,
- 4 to 8 weeks prior to start of event: 50% of the delegate fee,
- 4 weeks or less prior to start of event: 100% of the delegate fee.

All substitutions and cancellations must be received in writing.

#### Access Requirements

Delegates should advise of any special access requirements at the time of registration.

#### Registration Information

Registration information will be sent to registered delegates by email at least seven days prior to the event. Any delegate not receiving the registration information should contact us by email to [info@ibmata.org](mailto:info@ibmata.org)

#### Alterations to Programme

IBMATA reserves the right to make alterations to the conference programme, venue and timings. In the unlikely event of the programme being cancelled by IBMATA, a full refund will be made. Liability will be limited to the amount of the fee paid by the delegate. In the event of it being found necessary, for whatever reason, that the conference is postponed or the dates changed, the organisers shall not be liable for any expenditure, damage or loss incurred by the delegate. If by re-arrangement or postponement the event can take place, the booking between the delegate and the organisers shall remain in force and will be subject to the cancellation schedule above.

#### Speakers

Views expressed by speakers are their own. IBMATA cannot accept liability for advice given, or views expressed, by any speaker at the conference or in any material provided to delegates.

#### Photography & Filming

For promotional purposes, there may be a professional photographer and video production taking place during the conference. Delegates who do not wish to be filmed or recorded should advise the organisers by email to [info@ibmata.org](mailto:info@ibmata.org) prior to the event.

#### Data Protection

By submitting registration details, delegates agree to allow IBMATA and companies associated with the conference to contact them regarding their services. Delegates who do not wish to receive such communications please email events [info@IBMATA.org](mailto:info@IBMATA.org). The contact details of registered delegates will be placed on the attendee list which will be passed to sponsoring companies and to all attendees for them to see who is at the conference for the purpose of networking and meetings. Delegates who do not wish to be included on this list should advise at the time of booking.

#### Websites & Links

The conference and associated IBMATA website may link to other websites and networking tools provided for the convenience of the users. The contents of these websites are maintained by their owners, for which IBMATA and IBMATA take no responsibility. Neither can responsibility be taken for contents of any website linking to this website.

#### Insurance

It is the responsibility of the delegate to arrange appropriate insurance cover in connection with their attendance at the conference. IBMATA cannot be held liable for any loss, liability or damage to personal property.

If you have any questions about these Terms & Conditions, please contact [info@ibmata.org](mailto:info@ibmata.org)

## CONFERENCE SPONSORS & EXHIBITORS

Accenture is a leading global professional services company that helps the world's leading businesses, governments and other organizations build their digital core, optimize their operations, accelerate revenue growth and enhance citizen services—creating tangible value at speed and scale. We are a talent and innovation led company with 732,000 people serving clients in more than 120 countries. Technology is at the core of change today, and we are one of the world's leaders in helping drive that change, with strong ecosystem relationships. We combine our strength in technology with unmatched industry experience, functional expertise and global delivery capability. We are uniquely able to deliver tangible outcomes because of our broad range of services, solutions and assets across Strategy & Consulting, Technology, Operations, Industry X and Accenture Song. These capabilities, together with our culture of shared success and commitment to creating 360° value, enable us to help our clients succeed and build trusted, lasting relationships. We measure our success by the 360° value we create for our clients, each other, our shareholders, partners and communities. Visit us at [www.accenture.com](http://www.accenture.com).

For 16 years, Amazon Web Services has been the world's most comprehensive and broadly adopted cloud platform. AWS offers over 240 fully featured services for compute, storage, databases, networking, analytics, robotics, machine learning and artificial intelligence (AI), Internet of Things (IoT), mobile, security, hybrid, virtual and augmented reality (VR and AR), media, and application development, deployment, and management from 87 Availability Zones (AZs) within 27 geographic regions. Millions of customers, including the fastest-growing startups, largest enterprises, and leading government agencies' trust AWS to power their infrastructure, become more agile, and lower costs. The AWS cloud is uniquely positioned to provide scalable cost-efficient solutions for public sector customers to help them achieve their missions and increase collaboration across agencies and organisations. Visit us at: <https://aws.amazon.com/uk-public-sector>

Babel Street is the trusted technology partner for the world's most advanced identity intelligence and risk operations. The Babel Street Insights platform delivers advanced AI and data analytics solutions to close the Risk-Confidence Gap. Babel Street provides unmatched, analysis-ready data regardless of language, proactive risk identification, 360-degree insights, high-speed automation, and seamless integration into existing systems. We empower government and commercial organizations to transform high-stakes identity and risk operations into a strategic advantage. Babel Street is headquartered in the U.S. with offices near Washington, D.C., and Boston, along with Tokyo, Tel Aviv, London, Canberra, and Ottawa. For more information, visit [babelstreet.com](http://babelstreet.com).

BABEL STREET

BioRugged™ specializes in biometric systems with a strong focus on durability, ease of use and the production of mobile devices. We manufacture mobile solutions to register, identify and check individuals using different biometrics modalities quickly and effectively. Our devices are rugged, affordable, for both rural and urban deployment, and widely deployed in Africa and Latin America. Our range of products from handheld systems to custom-built mobile enrollment kits has unique features for any use case. Through our partners we provide our hardware solutions to Governments and private entities worldwide. Our devices are used in National ID, Passport, census, biometric voter registration and verification, Know-Your-Customer (KYC), law enforcement and border control projects. Founded in Africa, BioRugged™ is a privately held group of companies with offices in Ireland, South Africa, Hong Kong, and Shenzhen. We also have representative offices in Portugal, Germany, Nigeria, DR Congo, Ethiopia and Kenya and service partners in many countries across the globe. Contact us for more information on our wide range of system solutions.

Entrust keeps the world moving safely by enabling trusted identities, payments and data protection. Today more than ever, people demand seamless, secure experiences, whether they're crossing borders, making a purchase, accessing e-government services or logging into corporate networks. Entrust offers an unmatched breadth of identity verification, seamless travel, digital security and credential issuance solutions at the very heart of all these interactions. With more than 2,500 colleagues, a network of global partners, and customers in over 150 countries, it's no wonder the world's most entrusted organizations trust us.

Integrated Biometrics (IB), designs and manufactures advanced, biometric fingerprint scanners and identity management software for border management, law enforcement, national ID, and a wide range of social services and commercial applications. The company's patented light-emitting sensor (LES) technology enables lightweight scanners that outperform traditional devices in size, power consumption, portability, and reliability. Implemented in over 100 countries around the world, Integrated Biometrics' products often operate in remote locations and under extreme conditions. Commercial enterprises and financial services organizations depend on IB technology to establish and enforce customer identity in accordance with national and international standards.

Miami, FL, USA | 4-6 June 2024

## CONFERENCE SPONSORS & EXHIBITORS

Leidos is making travel and trade safer, healthier, and more efficient. We offer a comprehensive suite of fully-integrated enterprise security solutions for ports, borders, aviation and critical infrastructure customers around the world. Our comprehensive security detection portfolio has more than 30,000 products deployed across 129 countries.

Rapiscan Systems | AS&E is an industry leader in detection technology, providing cargo and vehicle inspection systems for borders, ports, military, high-threat facilities, and checkpoints to help customers combat terrorism, drug smuggling, illegal immigration, and trade fraud.

Our broad array of scanning systems leverages X-ray inspection, radiation detection, and optical inspection technologies to help uncover threats and contraband with ease and confidence while maximizing operational efficiency for each customer's unique security requirements.

Our uncompromising commitment to excellence in system performance, quality, program management, and service ensures our screening solutions consistently deliver best-in-class imaging, throughput, reliability, and operator satisfaction.

S2 Global believes people and goods should travel efficiently and arrive safely. By building innovative screening solutions, we help organizations achieve breakthrough improvements in security. With our intelligent platform CertScan®, we deliver integrated inspection services to transform connectivity between stakeholders and unleash the power of data sharing, accelerating secure trade, transport, and events.

SAIC® a premier Fortune 500® technology integrator driving our nation's technology transformation. Our robust portfolio of offerings across the defense, space, civilian and intelligence markets includes secure high-end solutions in engineering, digital, artificial intelligence and mission solutions. Using our expertise and understanding of existing and emerging technologies, we integrate the best components from our own portfolio and our partner ecosystem to deliver innovative, effective and efficient solutions that are critical to achieving our customers' missions.

We are approximately 24,000 strong; driven by mission, united by purpose, and inspired by opportunities. SAIC is an Equal Opportunity Employer, fostering a culture of diversity, equity and inclusion, which is core to our values and important to attract and retain exceptional talent. Headquartered in Reston, Virginia, SAIC has annual revenues of approximately \$6.9 billion. For more information, visit saic.com. For ongoing news, please visit our newsroom.

Securiport LLC is a global leader in the design and implementation of civil aviation security, border management, immigration control, and threat assessment systems. Headquartered in Washington, D.C., USA, Securiport partners with foreign governments from around the world to provide its proprietary Civil Aviation and Immigration Security Services, a comprehensive security suite with secure biometric recognition, identification of potential security risks, criminal activity, and threat detection.

Manufacturer of mobile video surveillance systems for government and law enforcement agencies.

Vision-Box is a multinational company with a presence on 5 continents and over 13,000 digital identity solutions used by more than 1 billion citizens. The company is a world leader in biometrics seamless travel, automated border management and electronic identity management solutions. Vision-Box's technology is present in more than 100 airports worldwide. Responsible for the most relevant advances in the use of biometrics, Vision-Box solutions streamline the passenger experience throughout their journey and improve the efficiency of public services to ensure safety, security, and performance. Based in Portugal, the company has 12 offices around the world in countries that include United Arab Emirates, United Kingdom, Australia, USA, and India.
